Do you have a Technician, or Technician Plus, class license and would like to upgrade to receive all of the rights and benefits of the General Class license holder? General Class ticket holders may operate on all HF bands from 160 to 10 meters along with all VHF, and UHF bands.

Our Education Director for WECA, Tom / KD2SQ would like to know if Hams, family or friends would be interested in attending an upgrade class in preparation for the **GENERAL** class amateur license exam.

This class will take place starting March 2, 2010 and will run 8 weeks beginning on March - 02, 09, 16, 23, 30 and also April 6, 13, 20. Time: 7 to 9 PM. The exam will be held on April 27. As with previous classes that WECA has taught, the class will be textbook based using the General Class study guide from the ARRL . ([click here](#) for information) or by visiting <http://www.arrl.org/catalog/?item=9965>. Each student will need to obtain this guide. Classroom presentations will be from several well-seasoned instructors, with many years of experience in our great hobby, teaching each class!

Classes will be at the American Red Cross, located at 106 North Broadway (Route 22), White Plains, NY 10603.

If you have interest in upgrading to the General class license and would like to attend this upcoming class, please E-mail Tom Kirchoff / KD2SQ at KD2SQ@WECA.ORG.
